Case Studies.

Find ONE risk (real case) in an organization that related to cyber threat or physical threat. For example:

1. Tracking data disruption in Post Laju
2. Global outage of IT operations running on Microsoft-based systems
3. Network disruption in KLIA in year 2019
4. etc....

You can choose any risk which happen in an organization but **DO NOT CHOOSE THE SAME CASE**. In you report you need to include the following:

1. Overview of the incident : (5 marks)
 - What happen to that organization?
 - When the risk occurs?
 - Why the risk occurs?
 - Who are involved in that incident?
 - How long it takes for the organization back to normal?
2. List and explain the procedure in risk identification, risk prioritization and risk assessment which related to that organization. (6 marks)
3. Mitigation strategies which related to that organization. (2 marks)
4. References and format (2 marks)
